RE: Advisory action 8/9/2010

In response to the Examiner's advisory action I wish to request for a continued examination (RCE). Please see enclosed form and check for fee that is due as a small entity status. I have also made a correction in claim 12 which was non-compliant. In addition, I have made a correction to claim 9 which will hopefully satisfy examiner's comment in advisory action. Please consider the enclosed amendment to the claims.

I wish to declare and make a verified statement that the modified claims include no new matter as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b) or 1.825 (d).

Please under MPEP 707.07(j) the pro se applicant requests that if the Examiner finds patentable subject matter disclosed in this application, but feels that applicant's present claims are not entirely suitable, the Examiner draft one or more allowable claims for the applicant

Respectfully submitted,

Elizabeth Frayne
